Remataremos a la mas alta postura y sin limites de ninguna clase, los nombrados campos, conocidos por el Venado Tuerto, situados sobre la frontera de Buenos Aires y Santa Fe, distando nada mas que 60 leguas de la Capital 15 leguas de Rojas, 6 de la Teodelina (de Alvear), 15 del Pergamino y 20 del Rosario.
Dista de las Estancias de los Sres. Gahan, Casey, Brown, Ham, Morgan y otros como 5 a 7 leguas.
Dichas estancias han costado casi todas de $860,000, a $500,000 la legua, y se garante que sus pastos no son mejores que los campos que se venden.
El ramal del Ferro Carril del Oeste que va al Pergamino y estara concluido en 15 meses cuando mas, pondra estos campos a un dia de viaje de Buenos Aires.
Estos campos son verdaderamente esplendidos y han sido visitados hace muy poco tiempo por un numero de hacendados y personas inteligentes que los reputan de primera calidad.
Hay muchas personas que creen que los campos virgenes o de pastos fuerte son de la misma calidad; es un gran error que ha costado mucho dinero a algunos pobladores.
Los campos al Sur de Venado Tuerto que lo forman los partidos de Lincoln, 9 de Julio, etc, son mas o menos arenosos llenos de medanos y nunca seran campos de primera calidad. Los al Norte no son arenosos pero en campio muy duros y casi imposible de refinar, mientras que los campos que ofrecen en venta son de tierra negra, pastos inmejorables con grandes cañadones, hermosas lagunas y lomadas, seis medanos.
Son campos que admiten 2000 vacas y dos majadas de ovejas por cada legua cuadrada y no son unicamente para cria de vacas, sino tambien para engorde.
Como tenemos orden terminante de vender todo el campo sin reserva alguna y siendo muy probable que por ser una area tan grande no se consiga la mitad del valor de estos campos, queremos llamar muy especialmente la atencion de los senores hacendadoa sobre su importancia.
Podemos asegurar desde ya, que la mayor parte de los compradores seran estancieros irlandeses y es sabido de todos que donde van esoa peoneers de la ganaderia, los campos pronto dublican su valor.
Prueba de ello son los campos del Norte y Oeste de esta provincia, donde han pagado de 1½ a 2 milliones por legua y todo el mundo decia que eran locuras; mientras tanto quienes son los hombres de fortuna en el pass?
Tenemos la firme conviccion que una vez que esten poblados estos campos y una parte alambrados, que lo sera antes de seis meses, no se podra comprar alli una legua por menos de 400,000 m/c.
Las condiciones de la venta son :
50,000 al contado y el resto a 1, 2 y 3 anos de plazo con interes del Banco de la Provincia o con diez por ciento de descuento haciendo el pago al contado.
Se vendera en lotes de una legua con opcion a mas, al gusto de los compradores.
Los planos estaran a disposicion de los interesados, deste el 12 del corriente en nuestra casa Alsina no. 78.
NOTA IMPORTANTE—La venta se efectuara aqui en nuestra casa Alsina 78, despues de un esplendido lunch que ofreceremos a nuestros favorecedores y al efecto deberan munirse de la correspondiente tarjeta de admision, sin la cual no podra tener acceso al local del remate. Siendo limitado el numero de tarjetas [100] pedimos ocurran con tiempo por ellas.

Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Fluido Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los aceites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.

Alcock's Porous Plasters.

Calle San Jose 755, Buenos Ayres, 4th Feb. 1881.
J. A. Bennet, Esq.,
195 Florida,
Dear Sir,
I have great pleasure in testifying to the efficacy of Alcock's Porous Plasters.
In 1876 I was attacked by Acute Rheumatism in this city, for which the three Doctors who attended me could do absolutely nothing.
After being in bed for 9 months, unable to move any of my limbs, I was advised by a friend to try Alcock's Porous Plasters. I did so, and in 15 days I was completely cured, returning to my work on the City of B.A. Improvements for Mr J O Simpson.
This fact is known to hundreds of persons here. You are at perfect liberty to publish this, and I trust it will induce others similarly afflicted to try them; they are certain to be benefited by them.
I remain,
Very truly yours,
W. MURPHY.

IN MEMORIAM.

On Monday next the Irishmen in the River Plate will have an opportunity of paying a tribute of respect to the memory of the late Father Fahy, as the reverend mother of the Irish Convent has invited Dean Monsignor Dillon to celebrate a Funeral High Mass on the 10th anniversary of his demise; and we feel it is hardly necessary to remind our fellow countrymen that a punctual attendance of all who revere his memory is expected.

The ten years that have elapsed since his death have been some of the most eventful in this country; we have witnessed changes sufficient to fill the annals of half a century in many other lands; those changes, however, have almost in nothing checked the prosperity of the little flock which this lamented pastor so zealously labored to protect, and whose good deeds were not interred with his bones, but have produced a fruit, perhaps the brightest 'im mortelle,' that we can lay on the coffin of this deceased clergyman.

The prosperity of the Irish colony in the River Plate is as admitted as the agency of the late Father Fahy in its promotion. He read the future of this country with precision, and wisely guided Irishmen in the morning of their Buenos Ayrean career; and the splendid fortunes which most of them possess are due to the shrewd foresight of Father Fahy, by whose advice and influence they purchased lands that to-day are some of the finest properties in the Plate.

Everything connected with our people here is associated with the memory of the deceased. The little chapel where this High Mass is to be celebrated was built by him, and the convent, of which it is an adjunct, he founded. The Reverend Mother, therefore, who has but recently arrived amongst us, was particularly happy in organising this tribute of respect to one whom she had never known, save by the noble monuments that survive him and attest his worth. Ten years is a sufficiently long period to try the memory of any dead man; and many who occupied more prominent positions than Father Fahy have long since been forgotten. Most of the rising Irish generation in this country only know him by name and the traditions of his usefulness; but we think we may safely assert that as long as there is an Irishman or his descendant in the Plate, the name of Father Anthony Fahy will be revered and his exemplary worth commemorated. Nor should we be so ungenerous as to limit the respect for this lamented clergyman to the narrow bounds of his flock, since his useful life and his great services have won for his memory the veneration and esteem of members of other nationalities and other persuasions.

Thirty years ago there were very few amongst us who read events as they subsequently fell out. Sheep were hardly worth the caring, and lands in the north were almost unsaleable. It really does seem Providential how in those early years of the Irish colony in this country a man of such far-seeing judgment as the late Father Fahy should have been sent to direct its fortunes. Had any one else come to fill the post of Irish clergyman at that period, how vast would have been the difference in the position of our countrymen to-day in the Plate. It may be truthfully said that Father Fahy took the people by the hand and led them to fortune; and let us doubt not that his direction was as successful in their spiritual as in their wordly affairs, and that the mission which he so ably directed during a long and useful life will flourish and thrive under the charge of his revered and respected successors.

ANOTHER RIVER PLATE CO.

The increased attention in Europe to River Plate affairs is rapidly developing into new companies for the development of our natural resources. Only yesterday we announced the successful launching of the Santa Fe Land Co, now we find in the London papers received per Colina that another River Plate Co. has also been successfully launched in London. The following is the prospectus :—

PROSPECTUS.

This Company is formed for the purposes of purchasing and further developing the valuable silver mine known as the 'Rara Fortuna', now being worked as a going concern, situated in the Province of Cordoba in the Argentine Republic.

The extent of land comprised in the sale is about 17 acres, equal to a direct run of 1,800 feet, the total length of the workings from north to south being at present 604 feet; this we have witnessed changes sufficient comprises three ordinary Mineral Grants of the Argentine Republic.

The property is held in fee simple, subject only to the Government Licence or Tax, amounting to about £15 per annum.

The great mineral wealth of the Guayco Pocho and Minas districts of the province of Cordoba, in the last of which the Rara Fortuna mine is situated, is now known and authenticated; silver mines have been worked by the natives at shallow depths with the rudest appliances, and fortunes have been made.

Geologically, the lode is a 'true fissure vein' in a porphyritic formation, which according to the most scientific authorities is the true matrix for silver ores, The lode improves in value as depth is attained. The above formation also occurs in the celebrated Comstock Lodes, which have proved so profitable in the U. States.

The width of the lode is over three feet throughout the entire run of the workings, with clean well-formed walls, with a good width of rich galena, almost throughout its entire length.

The lode gives an average of 250 ounces of silver to the ton of 20 cwt, and 60 per cent of lead,

The average value of the ore is £60 per ton, or nearly £150 per fathom; the production at present and during the past four months is about one ton of ore per day.

The estimate of profits accruing from the mine, as at present worked and on the low basis of the return of one ton of ore per day, is shown as follows :—

Production 30 tons of ore per month, of the average value of £60 per ton		£1800
Working expenses at the Mine 40 p. cent	£720	
Freight on ores from Mine to London, £4 per ton	120	
Sampling, assays, petties on sales, 3 per cent	54	
Charges of Administration, 5 per cent	90	984
Profit per month		£816

equal to £9782 per annum being over 10 p. cent on the total Share Capital of the Company.

Native labour is abundant and cheap, and especially adapted for the work required.

The Plan accompanying the Prospectus shows the present workings of the Mine. There are two shafts, the north shaft being sunk 134 feet. By sinking deeper and pushing forward mining operations energetically, increased production and consequently larger profits may be fully and reasonably anticipated.

The Company take possession of the Mine as a going concern, with all the plant and machinery thereon; comprising engine, winding gear, pumps, mining tools, houses, &c.

The Mine has been placed in a state of perfect working order by the Vendors. On the completion of the sale one of the Vendors, Mr Edwin Noel Eddowes, C.E. formerly resident Engineer of the Central Argentine Railway Company, has consented to act as Local Consulting Engineer.

Mr Eddowes reports, under dates of 16th October and 11th November last, as follows :—

"The Mine is now in a very satisfactory condition. All the work on the surface is complete, and below ground the Mine is good at all points. The percentage of silver, also, has increased, and a considerable amount of antimoniate of silver is now being brought to the surface.

"The shaft has been sunk on the lode to a total depth of 134 feet.

"The lode has not diminished in strength, but maintains its good qualities at every point. In the bottom of the shaft it is 3 feet 3 inches wide, with the same dip that it brought from the surface, viz, 80 deg from the horizontal. In the shaft the ground improves as we sink. In the gallery the ore runs almost uninterruptedly for the whole length, some of the stopes, or bancos having a width of ore of 9 inches.

"The following statements of assays made by Messrs Johnson, Matthey and Co, of various consignments of Ore from this Mine to Messrs Mocatta and Goldsmid, show the great richness of the Ore.

Samples of the ore, with Messrs Johnson, Matthey and Co.'s Certificate of Assay, can be seen at the Company's offices.

The vendors are the proprietors of five other silver mines in the above named districts, viz., the Argentina, Nivora, Santiago, Mogote Blanco, and Peregrina, and their object is disposing of the Rara Fortuna Mine is to obtain further capital, to enable them to develope these properties.

The consideration to be paid for the purchase of the Fee Simple and Mining Rights, together with the machinery and plant now on the property, is fixed by the vendors at the sum of £30,000, of which £15,000 is to be paid in cash and £15,000 in fully-paid shares of the Company.

The vendors are the promoters of the Company. The total charges for agency and brokerage will not exceed 2 per cent on the capital, and will include the legal, ordinary and other expenses incidental to the incorporation of the Company up to the date of allotment.

The following agreement has been entered into :—An agreemet, dated the 10th day of January, 1881, made between Edwin Noel Eddowes and Rafael Fragueiro of the one part, and Joseph Vincent Barber, as trustee for the Company, of the other part.

The agreement, together with the memorandum and articles of association, can be seen at the offices of the company.

Prospectuses and forms of application for shares can be obtained from the offices of the Company, or from the bankers, solicitors, or brokers.

A copy of the memorandum of association is annexed.

THE COUNT AND COUNTESS TELFNER AT PARIS.

The dinner party given by the Count and Countess Telfner in honour of Mr. John W. Mackay, took place on Saturday evening last week, and was one of the most superb entertainments of the kind ever given in Paris. The guests included General and Mrs. Noyes, Mr., Mrs. and Miss Mackay, Mr. and Mrs. Walker, Mr. and Mrs. Hueston and Miss Bigelow, Mrs. Hungerford, Mr. and Mrs. R. M. Hooper, Mr. and Mme. Bonaparte Wyse, Comte Gucowski, Comte de Lancastre, the Vicomte d'Abzac, M. Cabanel, the famous painter, and Dr Hitchcock. The floral decorations of the table were arranged in a most novel and artistic style, masses of white lilacs, many-coloured camelias, &c., being placed on beds of moss in a seemingly careless but most effective manner. The centre of the table was adorned with a mimic fountain, decorated with pearly tropical shells, in the basin of which swam living gold-fish. The floral plateau were also adorned with stuffed tropicalbirds of brilliant plumage and with tall and graceful reeds and striped grasses. The whole of this exquisite decoration was due to the artistic talent of the master of the house, he having sketched all the designs for it. The fruit, that filled two massive epergnes, was of phenomenal size and beauty, the grapes in particular being perfect marvels. The toilettes worn by the ladieo were extremely elegant, the fair hostess herself in a cream satin, brocaded with rosebuds in faint hues of blue and pink, and opening in front on an underskirt of dark blue velvet. Mrs. Mackay wore white brocade over a white satin underskirt, the whole being trimmed profusely with the finest point lace. A ruff worked with pearls, and sleeves of white silk net interwoven with pearls, adorned the corsage, which was also set off with fine embroidery in seed pearls. Mrs. Hungerford's dress was of dark green velvet, with skirt front and vest of pale blue satin, brocaded with raised flowers in velvet. The train was covered with two wide flounces of very fine and beautiful antique Venetian lace, set on longitudinally, starting from the waist, and continued to the edge of the skirt. Mrs. Hueston had on a white brocade corsage and train, with an underskirt of dark blue velvet, richly braided with gold. Mme. Bonaparte Wyse wore a heliotrope satin, with skirt front of white satin embroidered with large flowers in coloured silks and gold thread, the half-long sleeves being finished with deep cuffs of the embroidered white satin. Miss Mackay wore a pale blue grounded Watteau brocade over-dress over a shirred underskirt of pale blue satin. Miss Bigelow's dress was of white satin, the corsage being embroidered with seed pearls. Miss Hueston wore a red satin corsage, brocadee with small rosebuds, over a skirt of white muslin and lace. Mrs. Noyes was in pale pink brocade, trimmed with ruby velvet, and Mrs. Walker in lilac silk trimmed with stamped purple velvet.—*Continental Gazette*, Dec. 25th, 1880.

Martinez, Gen. Sarmiento, Mr and Mrs Penard, Mr Cernadas. Messrs Prescilla, Salas, Cernadas, Irigoyen and del Campo were the Committee. Mr Penard charmed the company by singing with a guitar, whilst rowing up the stream, some delightful English songs. The party rowed up to the island alongside Madame Calzetta's, which was beautifully illuminated with Greek lamps Chinese torches, and Bengal candles. A band of music from the squadron played in the pavilion where daucing began when the boats arrived, and this bewitching scene continued until midnight, when all rowed home. The youngest member of the party was General Sarmiento, who jumped from boat to boat with the agility of a Genoese boatman. The fete was one of the most splendid ever seen on the river, and, it is to be hoped, will be repeated. Beautiful artificial stars shot up from the boats by means of fireworks: even moons were shot through the trees, to the bewildered amazement of the lovely girls who crowded the boats. It was, indeed, a sight to see the boats pulling down the Carapachay at midnight, under the full blaze of a summer moon, and Mr. Penard and friends singing 'Row, brothers, row,' all the girls joining in the English chorus. Such scenes add years to dull life.

We are most happy to state that telegrams were received in town on Thursday night from Carmen de Areco stating that Mr Archy Craig was much better and recovering from his wounds.

A negro cook of the corvette Cabo de Hornos was murdered yesterday in broad noon day at the Capitania, by a sailor of the La Plata, who stabbed him in the liver and the heart and then walked coolly away, without the sentry, the police, or any one present making the smallest effort to arrest the assassin. What are we coming to?

Yesterday was somewhat dull in the news line. There was no steamer from Montevideo, and the only 'novedad' before noon was a 'Land League cravat' which a leading Irish subscriber received by the mail and exhibited in our office to our usual crowd of morning callers, although he says the time has not yet come for wearing it in this country. It is of bright emerald green satin, with the Irish Harp, surrounded with shamrocks, and with the words 'Land League' traced in silver on the bow-knot. It is very pretty, but the colour is rather trying to most complexions. We suppose that the Ciudad de Londres, Progreso, and M. Manigot will soon have a supply of these new cravats.

The project in the Legislature for new roads and paving the camp towns has been received with rapture in the camp. It is the first really useful measure that has been mooted for a long time in the Chambers. The camp towns are most sadly in want of legislative notice. In no country in the world is the contrast so great (although it must always necessarily be considerable) between the metropolis and the country towns. The camp towns of Buenos Ayres lack everything—pavement, gas, water, parks, libraries, amusements, everything in fact, except rampant political newspapers, which do more harm than good. This is due to the wretched Municipal system and the way the public money has hitherto been squandered in politics and other abuses. We hail the new scheme as a first step towards reform.

There will be Mass and Sermon in English to-morrow at the San Francisco Church, as usual, at 1 o'clock.

Many people consider the route laid down for the Corso this year as entirely too long; and that there will be, consequently, gaps in the lines of carriages, and no comparsa on foot will be able to 'do' it more than once of an evening.

The 'no quarter' business at Chorillos and Miraflores has now been taken up by the Italians in this city, and preliminary indignation meetings have already been held. In some quarters it is now asserted that no Italian Legion fought in the Peruvian ranks, so could not have been singled out for massacre. To our mind this is beside the question. What the whole civilized world will insist on knowing is simply, did the Chilian Commander allow either his soldiers or Chinese camp followers to massacre wounded and surrendered Peruvian soldiers in uniform? The nationality of the victims is, as we have said, beside the question. From the tone of the Chilian papers, we fear there can be little doubt as to the massacres having taken place.

Some of our colleagues unblushingly announce that some 'students' intend to celebrate the anniversary of the attempt to burn down the Jesuit's College. We feel pretty certain that the National Government will not tolerate even the semblance of such an insult to society in the Capital of the Republic.

The barley crop in Mendoza this year is very large and valuable, and the cultivation of this cereal is extending very rapidly up there.

Messrs. A. Bulrich and Co. distributed yesterday the plans of the famous Venado Tuerto camp, which they will sell this day fortnight. Intending buyers can procure them at our office. There are 71 lots, of a league, more or less, each.

The *Prensa* denounces the introduction of whisky and other beverages stronger than water into the Penitentiary by the female friends of the prisoners, who evidently think that the best way to keep their spirits up during confinement is by pouring spirits down.

It is feared the little craft Leon de Caprera is lost. One hundred and thirty-five days have elapsed since she sailed from Montevideo, and over three months since she was met by a French steamer. Going on the Atlantic in such a cockle-shell is simply tempting Providence.

The *Pampa* published yesterday 3½ columns describing the new iron-clad Admiral Brown, translated from the *United Service Magazine*, which says that no vessel in the Chilian navy would have the slightest chance in a stand-up fight with the 'tocayo' of the gallant old Irish Admiral.

The French St. Cloud fete draws greater crowds every night. Madame Wagner's 'tombola' is the great hit of the fete.

The preparations for Carnival are warming up, and it may not be so dull after all; but it is pretty certain that no striking novelty may be expected; and the same dreary string of furniture vans and hackney coaches, with withered leaves and the refuse of old clothes-shops hanging about horses and vehicles by way of 'decorations,' will meet the tortured eye of the spectator, the only relief, and it is a great one certainly, being the Porteña beauties, although in vehicles so utterly unworthy of them. The only people who understand the artistic side of Carnival are the Italians and the French. Spaniards relish its material enjoyments: but Germans, North Americans, Anglo-Saxons and all the hardier races of the earth neither like nor understand it, and make a poor show under mask and domino compared with their Latin-blooded friends. However, 'chacun a son gout.'

The famous Camp Bridges are not all rusted away yet. A lot of them has turned up in some forgotten corner, and the Government intends bestowing them on those parts of the camp most in need of them. It might be well to test them again before the bones of the public are trusted to them.

The mystery of the clean, Teutonic-like sweep which the Chilians have made of the Peruvians is at last explained. It is said most of the officers on General Baquedano's staff are ex-officers of the Prussian army, who were contracted with specially for the campaign. It is remarked that the Chilian Commander-in-Chief makes no reference in any of his despatches to the services of his Staff, to which Chile owes all her triumphs. It will be interesting to learn if there is any truth in this news. The latter part of the campaign was certainly carried on by Chile with a mathematical precision and calculation of results that looked very German.

The President of the Municipality has ordered that during Carnival carriages shall only be driven with 2 horses, and coaches with a larger number must have postilions. A most excellent measure in behalf of people on foot in the street. Sr. Alvear also invites the Presidents of all the 'Comparsas' to call on him and advise of the order of march.

No wonder that old Weller mistrusted widows. One of the species applied to the Municipality some days ago for leave to have the bones of her 'late lamented' husband taken from the grave in which they reposed and pitched into the common, pauper fosse!! The officials (all married men, we believe) were so horrified that they could only point to the door. A pleasant kind of woman for second nuptials.

A man was killed on the San Fernando branch of the Northern Railway on Wednesday. He was riding between the rails, and, seeing the train coming up, dismounted, holding his horse by the reins. As the train approached the brute got restive and dragged the man in front of the train, three carriages of which passed over him without touching him, but he was killed by the cow catcher of the engine, which was behind the train instead of in front. The poor engine-driver, although he is no more to blame for the accident than the man in the moon, is in custody.

THE VALUE OF LAND.

To the Editor of the *Standard*,

Sir,

We can stock in the Province of Buenos Ayres, that is on the refined part, double as compared with Victoria in Australia, which makes only sixteen millions of our currency per league, the land in Victoria being worth 8 millions.

There is a belt on the sea coast of Victoria in Australia of extraordinary fertility in its pasture. It runs along the sea for a considerable distance by about 3 leagues deep or inland. Its fertility is due to fog banks which come up and over it from the sea, the humidity thus imparted being also accompanied by bromine and iodine, valuable probably alike for the pastures and cattle. These lands are consequently said to be worth two and a half times those elsewhere. Mr Finlay, of Castle Toward, Scotland, has a run there with 10,000 or 12,000 Herefords, worth, it is said, £12 a head al corte. These privileged lands enjoy a constant 'riega,' and may be considered as worth a quarter more than estancia lands in the Plate, and these Victoria lands are worth twenty millions of our money.

Yours respectfully,

Breeder.

Patacons	29.40
Cedulas A	89½
National Bank Shares	76½
Roads and Bridges	92

There was a decided reaction in the gold market to-day, and prices that ruled so very hard yesterday dropped to-day; the news from London of the reduction in the Bank rate was considered the cause of the turn in the market, but there was other news from London calculated to put down gold, namely that one of the leading London bankers had offered the National Bank large advances on the National stocks and Bonds it holds. This of course would give the National Bank a fresh capital of at least half a million sterling, and we suppose that the National Bank will not be slow in doing the business, as it would be unpardonable management in the presence of such an offer to keep so much of the National Bank capital locked up. There are telegrams in town also announcing further gold shipments, and a leading merchant informs us that there is £120,000 on the way out. Gold opened at 29.40, sold at 29.45, and closed at 29.40. The business of the day was small, chiefly for end of month dropping from 29.50 to 29.45, and for March and April at 29.35 to 29.30. Cedulas gave way ½ on yesterday and closed at 89½.

National Bank Shares drooped; the rise of the other day was lost, simply because the buyers then are sellers now; sales were made last night at Burgos's corner, we hear, at 76½ cash for to-day, at which price they opened closing cash at 76½, and for the end of the month they began at 76½ and closed at 76⅝. The news from London of the offer of the bankers to make advances to the Bank on its stocks changed the tone of the market and put more life into the stock, which closed at 2 o'clock at 76⅝ buyers. Roads and Bridges one sale at 92.

The sale of a fine piece of land near San Lorenzo, Santa Fe, half a league front by a league and a half depth, is reported at reserved price, which, we believe, is about fifty thousand pats gold—the very convenient position of the land giving the additional value.

Five leagues of land near Rio Quinto are reported sold to an English buyer at 360 Bols. per league.

The wheat market, strange to say, presents the same aspect as the wool market, namely, a complete block-up, and it is said on the Bolsa that the colonists are now so well off that they can afford to hold their wheat until prices rise. There is certainly no wheat arriving down from Rosario, and the price of wheat has gone up some 30 per cent and more in this market. Meanwhile we hear that fully one million of arrobes of flour have been sold on contract, deliverable all the year, at 25 m/c. On the other hand, we hear from people in Santa Fe that the number of flour-mills in the colonies has of late years much increased; that these millers have nearly all capital, and that the colonists, almost to a man, are indebted to the millers for money advanced, and have been obliged to sell their wheat to the millers to pay off these advances; hence it is that all the wheat of the Santa Fe colonists, instead of as in former years coming down to Rosario, is held in the colonies by the millers up there, and not the farmers, and that now the flour is beginning to come down in the steamers pretty fast, say 500 bags each trip, and this flour for the most part goes forward to Brazil. Of course, if the wheat crop has been as good as has been represented, then although we shall miss the wheat, we shall always have the flour, which is a still more valuable export, and this we regard as the true reading of the present state of the wheat market, as it is not likely the millers in the colonies will allow the wheat before their own door to come down to Buenos Ayres and leave their own mills idle.

The notice we give in another column of the dividend on the Transandine Telegraph shares is another proof of the great value of this stock. We really have no other in this market that pays as well, and, according to the last report, the affairs of this company were never more flourishing.

The clearing of the Poitou was the business of the day; she takes a good cargo and fair passenger list, besides a very heavy mail, much exchange having been passed for her mail. These Marseilles steamers always find cargo and passengers; there is no better paying line in the Plate.

Mr Moores, our new consignatario of produce, made some splendid sales of sheep to-day, which attracted much notice—

5000 sheep al corte at 65
2000 do do Lincoln 80

These sheep have a reputation of their own, belonging to the far-famed estancia of Campana, Mr Brown's. The flocks sold are what are termed camp flocks.

The American barque Samuel E Spring has been placed on the berth to load for Boston; Mr Tay broker. Also the John McDermott has been placed on the berth to load for United States; port not stated.

The British barque Fylde has been chartered to load hay in the Boca for Rio at 2½ pats.

The telegrams from Antwerp and from London show that no such fall as that announced of 30 per cent has occurred at the London wool sales; on the contrary, the Antwerp telegrams state auction well attended, and prices from 5 to 10 centimes lower, which is not even 8 per cent, announced in the London telegrams. Good wools sell in our plazas at very fair prices, and 105 paid to-day for one lot.

The sales at the ring were—

At afterhours gold ruled weaker, several sales at 29.40, and market closed weak, sellers at 29.35.

Mr W Black was welcomed on 'Change on his return from Montevideo; he reports great crowds at the Pocitos and all the world down there at the baths.

Mr Casey, who arrived in from Lujan, was also welcomed; he reports everything flourishing out in the camp, and several large estancias in the outside camps being wire fenced.

Government Bills scarce and done at 10 per cent per annum, most of the bills very long dates.

The splendid steamer Dom Pedro expected to-night, she brings 40 artistes for French opera bouffe. Engagements for bales made to-day at 25 frs and 10 o/o.

Many parties are anxious to hear of a Mr Otto Beyer, who in last June was on the estancia Laguna del Cura, 9 de Julio, and has not since been heard of.

Some very good news from London was whispered on 'Change and kept as a great great secret; we understand it is an offer of a loan for one of our great works and an favorable terms, perhaps on Monday or Tuesday we shall hear more of this all important business.

At the Nat. Bank a meeting of Directors was held to-day to consider the offer of an advance on stocks by the London bankers, it is probable that the business will be done as the term is for 3 years and at 5½ o/o interest; 4 brokers who knew of this affair this morning came on the Bolsa and bought about 400 shares of the Bank. At afterhours there was a let up in the stock sales made at 76⅝ and ½ for end of month.

Mr Casey sold the following lots of wool—

2500 ar. at	81
1000	90
300	97
900	100
1200	103

Wool ruled much more active this morning in both plazas, and we heard on 'Change that very large sales were made.

The German patacho Espiciante with yerba was blown ashore yesterday near S. Fernando.

Even on 'Change they all talked to-day of last night's fete in the Lujan river, it was one of the grandest on record, and the San Fernando ladies did not get home until 3 o'clock in the morning. In another column we give further particulars.

The Allan Line Steamer Phœnician was despatched to-day for Havre with full cargo composed as follows—

2,400 bales wool
2,300 sacks linseed
3,200 dry hides
50 sacks animal charcoal
100 sacks hoofs and horns
20 tons bones

At Montevideo—
10,000 salted hides
200 bales wool

The auction of the estancia in the South by Messrs Baltar & Quesada was largely attended, however, only Lot 1 sold, estancia house with about a league of land for 391,000 m/c.

The auction of wines, Day & Peakes, was well attended; everything sold well and at fair prices.

Exchange rules firm and plenty of paper offering; one of our banks took a good round amount at 40⅜; francs firmer, 5.26-27, and 5.28 on Italy.

A gentleman just arrived from London states that the Bolsa on exchange closes there sharp at 3 o'clock, allowing merchants time to go to the Royal Exchange up to 4 o'clock. We have no Royal Exchange here.

The sale of a cargo of Cardiff coal to arrive at 10 pats is reported; also a cargo of salt at 7 rls.

The iced mutton steamer Paraguay has at last cleared after the most untoward delays caused, by having to send to France for many articles and new hands. She takes a full cargo of 24,000 sheep, which we hope will give good result.

Discount brokers report money more active, and money in the shape of loan looked for on National Bank Shares, but difficult. A small lot of National Bonds offered at after hours at 84.

It is rumoured that the partner in some house has been arrested for drawing all the funds out of the bank without permission of partner.

A petition to close the month's liquidation on Saturday is receiving general signature, and will probably be carried, as the following days will be Carnival.

The Court of First Instance gave judgment to-day in favor of Mercantile Bank in its great suit with Marini and Co. It is so many years since the case began that people will forget what gave rise to the issue.

Italian barque Pietro Autro chartered to load tallow at Casa Blanca, Uruguay, for Havre at 24 frs.

Plans of the great Venado Tuerto estancia are now to be had at Mr Casey's; all the neighboring estancias are market, and parties who have not visited the lands can form a very good idea of the locality etc by a look at this plan. We expect some of the last party back in a few days, and another party, chiefly Irish sheepfarmers, is now on the way out to see the lands and judge for themselves of their value.

The Sales at afterhours were—

We extract the following mercantile notices from an English paper, received by the last mail:—

"It is notified that their senior partner, Sir James Watson, has retired from business, and from being a partner of the firm of James Watson & Smith, of Glasgow, and that the business will be continued, as hitherto, by the other partner, Mr James Smith, who is now sole partner of the firm.

"Messrs Kleinwort Cohen & Co. have admitted Mr Herman Greverus Kleinwort as partner in their house, and have authorised Mr Robert Paul Deneke and Mr George Faber Karck to sign the firm, the former in London and the latter in Liverpool.

"Mr William Samuel Graves, late of Messrs S R Graves & Sons, of Liverpool, has joined the firm of Messrs Ismay Imrie & Co., of the White Star Line of steam and sailing ships, of Liverpool and London.

"Messrs Frederic S Ballin & Co., bankers, Paris, announce that from the 1st inst. their business will be carried on under the style of Alfred Grunebaum & Co.

"Messrs Rösing Bros. & Co., of London and Manchester, have admitted into partnership Mr Adolph H G Sagnitz, of Bremen.

"Messrs Ransomes, Sims & Head, of Ipswich and London, announce that the name of their firm is now Ransomes Head & Jefferies; the partnership with Mr W D Sims having expired by the effluxion of time.

"Messrs Schroeder & Co., of St. Mary Axe, have taken into partnership Mr Edward Sydney Schroeder."

The following late news about the Antwerp wool market, from Messrs Bunge & Co. of that city, under date January 13th, 1881, is important:—

Wool—

The year which lies behind us has been full of surprises and violent fluctuations such as cannot be reconciled with sound business. The exceptionally hard winter of 1879/80, which had quickened consumption to an unusual extent, radically clearing all old stocks in manufacturers and importers' hands, was the chief factor in making the article's position a very healthy one when the year opened and, together with the low prices then ruling, and the predicted falling short of supplies, occasioned a general run for wool at gradually rising prices, which continued uninterrupted until the beginning of May, when the decline set in. This movement acquired its greatest intensity through the active intervention of North American buyers during the months of March and April, but in so doing lost the undoubtedly legitimate character which it possessed in its origin and degenerated into wild and overwrought speculation, sure to be followed by an equally strong and exaggerated reaction. The value of an average Buenos Aires 30 o/o primera, which in the beginning of January was about frs.1.60, underwent no change in our public sales of the same month; during February and March it gradually rose to about frs.1.80 reaching its climax in April, when we find it quoted at frs.2 to frs.2.05 and large transactions made on spot and to arrive on this basis; superior Montevideos realising fancy prices, principally for export to the States. At our public sales of May the value of an average Buenos Aires 30 o/o primera had already receded to frs.1.90 to frs.1.95, large strikes in the North of France having given the first shock to the overconfident feeling, which until then had prevailed, and it is from this moment that the beginning of the retrograding movement can be dated, which has since continued uninterrupted, set apart some insignificant fluctuations.

Very little indeed remains to be said concerning the latter half of the year, its chief characteristics, dullness, and a general stagnancy of business never disappearing altogether, and partially even remaining extant to this very day. In our July auctions the value of our standard description was down to about frs.1.65; soon after the coming off of this event sales by private contract were effected at a rise of 5 centimes or so, but this did only last until the beginning of the October auctions, when prices were again brought down to the lowest standard they had occupied in July, viz—frs.1.65-70 for an average 30 o/o B. Aires primera, and thus they have remained without further change until to-day.

Summing up the course of events in a few words it may be said that the sound situation which the article occupied at the beginning of last year, has come to nought through an undue and exaggerated intervention of speculation, and that it has cost six months of quietness and utter reserve to repair the harm done and even to-day not having quite succeded in doing so.

The situation of our market has not varied since our last issue. Transactions were of little importance, principally owing to the many holidays, and prices remain unchanged. Our next public sales are to begin on the 19th instant, when 18,000 bales will be brought forward. It may be hoped with some reason that the present standard of values, moderate as it is, will be maintained on the occasion, as supplies do not exceed reasonable limits and consumers are represented as being almost bare of stocks.

Freights—
Very scarce, and still lower than last month.
Wheat—
Millers buy very little; prices still much too high for exportation.
Linseed—
Considerable quantity shipping from the port of Santa Fe for Europe, as also a small quantity from this for France and England.
Hay—
Without demand; owing to unfavorable reports from Brazil, regarding yellow fever, few vessels will accept charters for these ports.
Maize—
We hear a small quantity has been bought for shipment to Liverpool; reports about coming crop are more favorable.

We have received the following letter for publication:—

Belgrano, Feb. 18th, 1881

E. T. Mulhall, Esq.,
The Standard,

Dear Sir,

In answer to the remark contained in to-day's paper kindly note that the reason why the public lighting account has been allowed to assume large proportions is simply because the Company has endeavoured in every possible manner to bring the authorities to a sense of their obligations, and as all other means have failed recourse has been had to the step which is authorised by article 9 of the contract.

To prove how unwilling the Company is to inconvenience the authorities, from whom no sort of consideration is received, I may mention that as the Judge of the Peace of Belgrano is absent, and notwithstanding the fact that more than a month's notice has been given to the Municipality, an order has been issued to light the town lamps to-night in expectation of his return to-morrow.

Yours very truly,

P.p. The Belgrano Gas Company,
Arthur E. Shaw.

ARITHMETICAL PROBLEM.

B. Aires, Feb. 16th, 1881

To the Editor of the *Standard*,

Dear Sir,

I have read all the solutions of the arithmetical problem with great interest. After examining them all, I think most of your correspondents have made one great mistake. They have read over the problem, solved it as if it were an ordinary business transaction, and have forgotten to take into consideration the terms used by the propounder. What is wanted is merely the answer to the question as stated, and therefore the solutions given by *J. B.*, (I mean the first *J. B.*, as there appear to be two) Messrs Altgelt & Eppen, and an unknown correspondent, seem to me to be the most correct. It is a simple arithmetical question, which any one with a knowledge of arithmetic might answer although he knew nothing about business. When it is clearly stated that the 3 o/o commission is to be charged on the remainder of the first sale less 5 o/o I no not see that any person has a right to say that the question or a solution worked out on that foundation is wrong. Let us suppose that $f.12,000.00 is the first amount, deduct 5 o/o leaves $f.11,400.00. The question says allow "3 o/o on that remainder". 3 o/o on $f.11,400.00=$f 342.00. Invest the remainder, which is $f.11,058.00, in wool, sell it at cost price and charge 1 o/o on transaction or $f.110 58. Total commissions $f.1,052.58.

I know perfectly well that this method is quite against business customs, but as I have said before we have nothing to do with mercantile rules. I do not maintain that $f12,000 is right, as it is very difficult to tell what the last commission of 1 o/o should be charged on the meaning of the propounder being a little hazy, but I will only say that looking solely at the problem, quite apart from all theories; this appears to be the most rational answer.

Yours respectfully,

Sutocs.

EAST ARGENTINE RAILWAY.

A special meeting of the Proprietors of this Company, convened in pursuance of a requisition of Shareholders; was held on Wednesday, Jan. 5, at the Terminus Hotel, Cannon street, for the purpose of taking into consideration the present position of the Company's relations with the Government of the Argentine Republic:

The Right Hon. W. N. Massey, M.P., the chairman of the Company, presided.

The Secretary (Mr H. B. Templer Powell) having read the notice calling the meeting,

(The chairman's speech we have already published).

Mr Hopwood—As I believe I was the means to some extent of calling this meeting together, I may as well just give a short account of how that arose. Some Shareholder sent to us a circular—I suppose it was distributed amongst the whole of the Shareholders—calling attention to the default of the Argentine Government, but he did not sign his name to it. We, however, heard no more of this paper sent round to us; and I had no objection to sign my own name and ask the Shareholders it agreeable, to attend a meeting of this kind—(Hear, hear). I will not detain you any longer than is absolutely necessary. I can only say that I must express my satisfaction to the chairman for the very strong manner in which he has spoken, and it is the first time that I have heard him speak so strongly on this matter, for generally I may say that he has spoken rather as an apologist for the Government. I presume that is owing to his good nature and to his wish not to offend the Argentine Government. We have done everything we possibly could I think after having waited four or five years and had nothing at all from them exept a paltry 5s. per share, it is really time for us to make a move, In every paper I have looked at recently I have seen wonderful good accounts of the prosperity of the Argentine Government, and this morning I saw something about 120,000 patacons having been promised on account of the payment of the guarantee as I understand it. But I presume from what I have heard since that this is a very small matter, and only means £15,000 or £16,000. That comes from customs dues, and has to be negotiated in this country, and it is a mere drop in the bucket; it is nothing at all in fact. I thought it better to have some sort of resolution to propose, and I have one which I hope will meet with the assent of the meeting generally. We have heard that there is to be a loan negotiated on the part of the Argentine Government, but I think it is hardly fair that they should call upon us to subscribe to a new loan when they are so far behindhand in paying their interest. The resolution runs in these terms: 'That in the opinion of this meeting it is desirable that the Directors should immediately take steps to record their protest, not only in London but also in Paris, against the introduction of any new loan on behalf of the Argentine Confederation until the guarantee of this Company has been fully discharged.' I think that it is a very mild way of putting it, and therefore I shall simply leave this resolution in your hands.

Mr W Abbott—Mr Chairman and gentlemen, I have very great pleasure in seconding the resolution proposed by my friend Mr Hopwood, and I have not the slightest doubt that we shall carry it unanimously. If any justification were necessary for the action which my friend has taken it would be the very large response which I see in this room by the presence of the Shareholders of this Company in answer to your invitation to confer with you to-day. Now, Sir, it may be urged by some that we are in a considerable amount of difficulty in consequence of the Argentine Government having elected to favour the Parisians with the invitation to subscribe for their bonds rather than the holders on the London market, but I do not think that need cause any anxiety, because I believe that with the resolution which has just been proposed, backed up as it would be by the Directors, and sent from the Board to the Minister of Finance in Paris, it would be utterly impossible to raise an amount of any magnitude in that city. I rejoice in the action that has been taken for several reasons. It is a lesson not only to the Argentine Confederation, Government but to other Republican Governments, and will show them that the money markets of Europe are not open to them to meet their requirements whenever any default either on Bondholders or Shareholders has taken place in Europe. (Applause.) Now, Sir, the mover of this resolution has alluded to the fact that all the accounts from the Argentine Confederation are of a very glowing character. Well, that is easily explained. The need for money in the Argentine Confederation on behalf of the Argentine Government is great, and therefore no doubt they put the most roseate tone upon the state of their internal affairs. But I am very pleased to know, from information which has reached me from a good quarter, that there is ample justification for the satisfactory announcements; and therefore I have not the slightest doubt that the action which has been commenced here will be productive of satisfactory results. Regarding the question asked by an honourable proprietor as to how much this £170,000 amounted to per share, I should be sorry to disabuse his hopes in any way if he thinks he is likely to get the whole of that £170,000 distributed in the form of dividend; but I hope, Sir, if you succeed in your efforts to obtain this money from the Argentine Government that you will not be so foolish as to distribute the whole of it amongst the Proprietors. I for one would be the first to raise my protest against any such distribution, because it is perfectly clear that this Company requires money for capital purposes; it has had no credit to raise money, and therefore if we can use a windfall such as we are now likely to happen upon, I think that is the policy that we should pursue. With these remarks I have much pleasure in seconding the resolution proposed by my friend. (Hear, hear.)

A proprietor mentioned a report that the Argentine Government were raising objections to the payment of the money due by stating that the line was not constructed according to contract. He would like to know whether that was the fact or not.

The Chairman—No; there is no foundation whatever for that. I may say before putting this resolution to the vote we have already anticipated it to some extent, for several weeks ago we caused a notification to be put in the money article of such of the papers as chose to insert it—some of them did not—that the Company would think it their duty to oppose the question of any new loan on the English Stock Exchange pending the non-settlement of our claims upon the Argentine State. I understand that if this resolution should be adopted by the meeting it would be incumbent upon us to make this notice in a very public and formal manner—that is by advertisement in the public journals. (Hear, hear). And of course, should this resolution be passed, a copy of it, with a covering letter, will be immediately forwarded to the Argentine Government.

A Proprietor suggested that the words 'and elsewhere' should be inserted in the resolution after the word 'Paris.'

Mr Rendall said that he did not wish to offer any substantial opposition to the resolution which had been proposed, but he thought that if it were passed in its present form it might do harm instead of good, whereas by slightly varying the terms it might do only good. The resolution went to the extent that the loan was to be absolutely protested against until the guarantee was fully discharged; but supposing the Argentine Government were prepared to say they would pay half now and half in six months, he apprehended that every one in that room would be glad to accept the offer. It was undesirable to make it impossible for the Argentine Government to offer some substantial arrangement which would be satisfactory to the Company, but it seemed exceedingly reasonable to protest against any new loans being contracted and new benefits received by the Argentine Government so long as the claims of the Company were not substantially met. He suggested that some words should be introduced into the resolution making it possible for a substantial or satisfactory arrangement to be agreed to.

A Proprietor said he thought it desirable when the resolution was forwarded to the Argentine Government that a notification should accompany it stating that the Company did not want to be hostile, but that having done all they possibly could without obtaining the money due to them, they were driven to pass the resolution.

Mr Freeman doubted whether such a hostile resolution would be wise or prudent. If the resolution were sent to all the cities of Europe the Argentine Government might use the argument that the Company had made it impossible for them to obtain money, and that therefore they were unable to meet their engagements. He thought they should inform the Finance Minister of the Argentine Government that unless a proposition to a certain extent of a satisfactory character were at once made the Company would be compelled to take the measures which had been indicated by the resolution. If no arrangement were made they could then send the notice to different parts of Europe.

Mr Hopwood said he had no objection to substitute the word 'satisfactory' for the word 'full.' But for the last four or five years the Company had done everything in their power to induce the Government to meet them but had really received nothing. Therefore the meeting had been called to see what steps should be taken. Besides the resolution he had read he also thought of proposing that if the Argentine Government would issue 6 per cent bonds to the amount of the accounts due, and distribute them among the Shareholders, those bonds should be accepted.

Mr Taylor enquired whether the debt up to the end of 1879 had been approved by the Argentine Government.

The Chairman—The accounts to the end of 1878 are what may be termed a liquidated debt, because they have been approved by the Government and nothing remains but to pay them. The accounts of 1879 have not yet undergone that formal process, and therefore they cannot strictly be said to be a liquidated debt. The accounts for 1880 have not yet been sent in. Year by year these accounts have been passed with fair expedition, and only some small questions as to a few hundreds perhaps, have arisen between the Company and the Government.

Mr Laurence J Baker (a Director) explained that the local Director frequently went to the Government offices and implored them to pass the accounts.

The Chairman, in reply to a Proprietor, said that the amount due to December, 1878, was £153,838.

The Chairman—The solicitor suggests some formal alteration to the resolution—not any substantial alteration—which I hope will be acceded to by Mr Hopwood. If you will allow me, I will read it in the form in which the solicitor has corrected it:—"That in the opinion of this meeting it is desirable that the Directors should immediately take steps to record the protest of the Company, not only in London but also in Paris and elsewhere, against the introduction or quotation of any new loan on behalf of the Argentine Confederation until the guarantee upon this Company's capital has been discharged or satisfactorily arranged." That will specify no sum due, so that no cavilling can arise as to the particular figure, nor will it commit the shareholders to any hard and fast rule such as has been objected to by gentlemen, and I think very properly. I would not suggest to the Government any alternative mode, but only that of payment in satisfaction of the claims of the Company. I think it would be better to be silent upon the subject of bonds or any other substitute security.

The resolution as amended was then unanimously agreed to.

Mr W Abbott proposed a vote of thanks to the chairman and his colleagues, and said that he had not the slightest doubt their efforts would be crowned with success.

The resolution having been seconded was passed unanimously, and the proceedings terminated.

Pergamino Railway
Wholesale and Retail Store of Ironmongery, Haberdashery, Linen, Tailoring, Timber, and Barraca of Progreso,
IN THE PRINCIPAL PLAZA
OF
Arrecifes
I beg to notify my Irish friends and clients, that having returned from Europe and extended my business connections, they may rely on prompt and careful service, as I will myself superintend the store in this town.
I have received an immense supply of articles of almacen, Ironware, wire, timber, tobacco for scab, sulphur, potasium, etc., etc., which I am enabled to sell at the prices of the Buenos Ayres market.
I am the exclusive Agent for the LITTLE FLUID in Arrecifes and Carmen de Areco, of the firm of Morris, Little & Son, Doncaster, England, and Messrs. Runciman & Co. I am also agent for Messrs. Moore and Tudor's GLYCERINE. Besides, all the Dips used in the Republic are on hand in my store, also poisons for hides, cures for foot-rot, etc. etc., and all at prices of the importing firms.
Any article not in the store will be forwarded after 24 hours' notice.

Good camps in the North
18 leagues from San Nicolas and identical distance from Rosario. When the railroad to Pergamino is completed these camps will be the most favored in the partido. Pasturage first class, crossed by a large cañada. Every second day diligences arrive and leave for Rosario and San Nicolas; one of the most prosperous colonies lies alongside the camp; there are several large estancias in the neighbourhood; there are animals on the place and the owner has received offers to wire the camp if he give a contract for 6 or 8 years' lease the property covers an area of 6 square leagues and is most adapted for a large estancia business, with the Buenos Aires, Rosario and San Nicolas markets near at hand. Before the year is out the camp will be worth $400,000 per league, whilst now 150,000 m/c will be accepted. Conditions of sale most favorable to purchaser.

In front of Caballito Station
Fine English Park
SPLENDID GRASSPLOT
The finest collection of Plants and Trees etc.
Comfortable and fine House

On Sunday, 20th February, at 5 p.m. we will sell off by auction by order of Dr. Amancio Pardo, this well-known property situated in front of the Caballito Station of the Western Railway and lying alongside the beautiful properties of Messrs Zuberbuhler, Zorraquin, Niebuhr, Veniura Fernandez, Yeabay, Urmeneta and Olivera.

This property is situated on rising ground, the highest for thirty leagues around, and the healthiest locality in the province. In the middle of the park stands the house; the park covers an area of a square, and the basis of sale for these fractions is only $300,000 m/c, with conditions most favorable to the buyer.

There are a varied collection of prize plants, a grand English park, a beautiful French 'pelouse,' and the finest pine trees, aromas, etc, in the province; the fruits from the quinta enjoy an enviable reputation.

The house, well built, comprises five large and comfortable apartments, high and well ventilated, a gallery surrounds the house with painted glass, whilst the vestibule affords a fine entrance, the house is comfortable in all seasons. A patio separates the house from the out-offices, four in number; besides there is a separate dwelling, with three rooms for servants.

It is necessary to see the quinta to form a correct judgment of the place.

The fruit garden is the best in the country

Plans and details will be given at our office San Martin 51.

There are several lots of land near, which will be sold same day and can be incorporated with the quinta. The quinta is open to inspection.

El establecimiento principal es de 2 piezas de azotea, tres techos de fierro y 2 de paja, potreros alambrados con monte y alfalfares, ademas hay puestos de azotea con todas las tranqueras.

Existe ademas un alambrado de 30 cuadras linneles de la costa, una bomba de Marti con sus jagueles correspondientes, sin contar las que hay en cada tranquera.

La hacienda toma agua en la 'Mar Chiquita y la laguna denominada 'La Escondida que no se ha secado aun.

Este establecimiento dista 4 leguas de Junin, de manera que se puede llegar en el dia, saliendo por el primer tren se llega a Junin a las 5½ y estaria en la estancia a las 7 de la tarde; de manera que se esta en comunicacion diaria con el establecimiento, grandes ventajas que no deben perderse de vista en negocios de esta clase.

El campo se presta admirablemente para la cria y engorde de ganado vacuno, y el año pasado se han vendido en los Corrales por D. Romulo Diaz parte de las haciendas con brillante resultado, empleando el Ferro-Carril desde el Bragado.

La base de $100,000 m|c. por legua, entrando alambrados, poblaciones y jagueles, es sumamente modico, y a mas las condiciones de mitad al contado y el resto de 1 y 2 años de plazo, con intereses de 7 o|o anual en hipoteca del campo.

Tambien se vende el campo particularmente, igualmente se venden 4000 vacas que hay en el

Remataremos por orden del Directorio del Banco Nacional y con la basa de ciento sesenta mil pesos fuertes oro pagando el veinte por ciento al contado y el resto en una letra a 90 dias con intereses del Banco renovable con amortizacion del 6 p. cent trimestral sobre la suma originario de hipoca del bien raiz.

Esta valiosa propiedad domidada El Cerrito ubicada en el departamento del Parana distrito Tala, Maria Grande, Hernandarias y Antonio Tomas.

Se compone esta propiedad de treinta y nueve y media leguas cuadradas con un frente de mas de 3 leguas sobre el Rio Parana teniendo al interior innumerables arroyos en su mayor parte de aguadas permanentes, algunas de las cuales como el de la Curtiembre, Las Palmas del Medio, de La Cruz, que desembocan sobre el Rio Parana. Sobre el primero de estos arroyos existia la poblacion de la Curtiembre cerca de la Roca de Arroyo del mismo nombre donde existe un buen puerto ya muy frecuento La otra poblacion principal es el establecimiento El Cerro con algunos puertos de su dependencia distante de la ciudad de Parana 7 (siete) leguas, on esa parte y en el cual fondo como diez y siete leguas. La calidad de los campos en su mayor parte son pastos fuertes y entreverados, en los arroyos y canadas pastos tiernos, estan ademas muy poblados de monte s de maderas duras como Nandubay, Algarrobo, Espinillos y renovales que se prestan a ser esplotados en grande escala.

Debemos llamar muy especialmente la atencion de los capitalistas, no solo de este continente sino aun losdel viejo mundo, pues una area tan vasta situada en un rio navegable para buques de todo calado, con puntos accesibles a los mismos con inmensos montes cruzados por innumerables arroyos de aguada permanentes que esta destinada a hacer la fortuna de las personas que se dediquen a su esplotacion; en prueba de ello podemos citar los campos conocidos por el Potrero en la misma provincia que hace pocos anos fueron comprados por los Srs Unzue, Gelmaner y Ca, en 800,000 ps. fts., y que no darian hoy esa propiedad por el doble.

La propiedad El Cerrito debidamente poblada y esplotada sera una mina de oro. Y estamos convencidos de que sus compradores podran pagar en las condiciones ventajosas y facilidades dadas por el Banco Nacional los plazos estipulados en el producto mismo de este grandioso establecimiento de campo.

En el mismo establecimiento,
El Domingo 20 de Febrero,
Despues de la llegada del t en (de 1 a 2 p.m.) remitaremos a la mas alta postura y dinero de contado, por orden terminante de su dueño, por ausentarse a Europa.

El establecimiento 'La Florida,' distante tres leguas del Bragado, marcado en el plano grafico con el nombre de Sebastian Meabe, compuesto de una legua cuadrada, y cuyo pormenor es el siguiente—

CAMPO—Superior clase, tanto para hacienda vacuna como lanar, pues sus pastos son entreverados y hay de cuantas clases se conocen, existiendo actualmente alli cerca de 8000 ovejas y como 600 cabezas ganado vacuno, habiendo tenido hasta 5000 cabezas.

AGUADAS—Existen varias lagunas de agua dulce, algunas de ellas muy fuertes y bastantes hondas, en su mayor parte con vertientes.

POBLACIONES—La poblacion principal es muy grande y vasta, y a la distancia por su tamaño y numero de departamentos parece un pequeño pueblo. El edificio principal tiene 120 va de estension, con un gran corredor a los costados, 22 habitaciones a un costado, grandes galpones para depositos de lana, casa de material para el capataz, a mas 2 habitaciones para casa de negocio; todo este campo bajo cerco de varilla sobre grandes pilares de material, gran porton de entrada y dos pequeñas puertas de entrada, pozo con pileta que surte de agua al corral de caballos, cerco de material igual al anterior, con galpon para los animales, y un gran palomar.

Al fondo de la casa esta el jardin frutal y vegetal bajo cerco; una gran inagotable noria, especie de pozo artesiano con un gran molino de viento que por medio de la bomba lo echa a un gran deposito por donde pasa a una inmensa pileta de material, toda revocada con cimiento hidraulico, con su casilla de baño con puertas persianas en los cuatro costados; de la pileta el agua es llevada a su vez a una gran laguna o jaguel que esta al pie del jardin y que en tiempos de grandes secas sirve de bebedero a la hacienda; existen aqui otros dos palomares; a ambos costados de la casa principal y al fondo grandes alfalfares (7 a 8 cuadras) que producen anualmente de 100 a 120 toneladas de pasto seco, existiendo actualmente varias parvas con 80 toneladas mas o menos, al frente galpon de madera, te ho fierro galvanizado, con su correspondiente corral que es el tambo.

Un gran potrero que puede contener hasta 5000 vacas con su gran laguna, siete puestos con corrales y otro potrero mas para hacienda yeguariza.

MONTE—Esta distante unas 3 cuadras de las casas, y es reputado el mas grande en todo el Oeste, cubriendo una superficie de mas 1000 varas por costado y plantado con palo a pique, calculandose que no bajaran de 800,000 a un millon de arboles de todas clases, como paraisos, acacias, duraznos, alamos, sauces etc., los cortes de maderas que se hacen alli todo el año, casi decir que no se notan, asi que esta es una mina inagotable.

La plantacion esta perfectamente hecha con grandes calles, para que puedan entrar las carretas a cargar con leña.

Existe aqui otra poblacion de azotea con tres piezas, cocina, pozo y pileta, para que pueda ser habitada por el encargado de la esplotacion de las maderas.

Vacuna—
De 450 a 500 cobezas, con toros mestizos, hacienda gorda en muy buen estado.
70 a 80 lecheras de tambo con cria, con un toro fino cria de Blandengues.
20 vaquillonas, hijas de las tamberas.
Caballar y yeguarizo—
38 yeguas al corte, 2 id finas, 34 caballos de andar, 10 id de tiro.
MAQUINAS—De cortar alfalfa, arados y demas implementos de agricultura para un gran establecimiento, 2 carros de 2 ruedas en muy buen uso, un lindo Break con toldo y todos los enseres y demas muebles de la casa.

Como puede verse por los detalles que antecede, el establecimiento esta bien montado y en estado de poderse esplotar en mayor escala todavia de lo que esta.

Para dar una idea de lo que puede dar, diremos que el año que ha pasado (1880) ha producido en pasto seco y leña del monte cerca de $80,000 y suponiendo que anos abundantes de pasto, como el presente, que el precio bajo no produsca sino la mitad, son $40,000 anuales seguros que salen del Monte y del Alfalfal, sin tomar en cuenta que un monte come este viene a ser la salvacion de las haciendas en dias de temporales como los que han pasado.

Ahora le queda la esplotacion del campo, que cualquier estanciero con algunas nociones puede decir lo que dan 4000 ovejas y 3000 vacas u 800 ovejas y 1500 animales vacunos.

La venta de todo el establecimiento se hara alli mismo, comenzando con el casco en un solo lote, siendo las condiciones mitad al contado y el resto a 6, 12 y 18 meses de plazo, con interes del 6 o|o anual con pagares hipotecarios del campo.

Condiciones ventajosas y que facilitan al comprador a pagar con el producto de la misma estancia.

Pedimos a los interesados que visiten el establecimiento, que alli encontraran al proprietario y veran que cuanto decimos no es exagerado; al contrario, tendran que confesar que hemos sido verdicos, en su descripcion, de las notas que hemos tomado personalmente en la rapida escursion de 24 horas hechas sobre el mismo terreno.

Las personas que quieran ir el dia antes del remate pueden hacerlo y nos encontraran en la estación del Parque a la salida del primer tren el 19 de Febrero. El remate se hara el 20, despues de la llegada del tren al Bragado, donde encontraran carruages que los conduciran en una hora a la Estancia.

en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiente mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, pueden hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para los tres dias de Carnaval es decir los ultimos dias del entrante mes de Febrero, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso. El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.

Todos los criadores de la Republica saben que alli no se han encomitado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.

Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.

En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental e Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este remate que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.

Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres. Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais e importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

Se venderan al mejor precio y al contado por orden de los Sres Runciman y Ca. estos cinco preciosos animales, que son los primeros que se introducen al pais y que se encuentran en esposicion en nuestra casa de remates.

GENTLE VI—Raza pura Devon pelo colorado, nacida el 18 de Octubre de 1875—y servida por el celebre toro Fancys Robin el 27 de Junio de 1880

HANDSONE II—Raza pura Devon pelo colorado, nacina el 13 de Mayo de 1877—y vida por el toro Rob Roy el 10 de Noviembre de 1880.

MYRTLE V—Raza pura Devon pelo colorado nacida el 6 de Abril de 1873—y servida por el toro Fancys Robin el 20 de Julio de 1880.

BETSEY II—Raza pura Devon pelo colorado, nacida el 17 de Setiembre de 1878—y servida por Fancys Robin el 15 de Octubre de 1880.

FANCY IV—Raza pura Devon pelo colorado, nacida el 10 de Marzo de 1878, y servida por el toro Fancys Robin el 16 de Junio de 1880.

Los pedegrees de todos estos animales y tambien el de los padres y de los toros que las han servido se encuentran en nuestra casa a disposicion de los interesados.

Esta raza tiene superioridad en el cuero a las demas por su peso, en el engorde pue le vivir en un campo donde otros animales no resistirian, son muy lecheras y los bueyes que ellas producen, son superiores en poder y camino a todos los que se conocen hasta hoy.

En la Republica Oriental se han introducido de estos animales por el Sr D. J Soraine a quien le han dado los resultados mas satisfactories en sus haciendas.

Respecto a carne esta es la raza que mas aceptacion tiene en Inglaterra para el consumo y aun cuando es en estatura mas baja que el Durhan tiene ventaja sobre este en la caja del cuerpo y la merma que pudiera haber en corne la tendrr de aumento en el peso del cuero.

Los pedegrees de estos animales vienen legalizados por el consul de la Republica Argentina en Liverpool, y este medida ha sido tomada para seguridad del comprador, que sabra que la vaca que compre es de la procedencia que se indica, desde que ella viene autorizada por la firma del Consul.

Pronto anunciaremos los toros de esta raza que estan al llegar.

Los interesados pueden visitar desde hoy estos animales que se encuentran en esposicion en nuestra casa Bolivar 7.

Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, procucing for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pallid complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE

is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.
